TOWN MANAGER & TAX COLLECTOR

At Central Hall

8:30 a.m.—12:00

1:00 p.m.—5:00 p.m.

Saturdays 8:30 a.m.—12:00

Please bring your Town Report to Town Meeting

IMPORTANT

All Taxpayers should read the following requirements and comply with them:

Section 70, Chapter 13, Revised Statutes of Maine, 1930:

"Before making an assessment, the Assessors shall give reasonable notice in writing to the Inhabitants, by posting notifications in some public place in town, or shall notify them, in such other ways as the town at its Annual Meeting directs, to make and to bring in to them true and perfect lists, of their polls and all their estates, real and personal, not by law exempt from taxation, of which they were possessed on the first day of April of the same year. If any resident owner, after such notice, does not bring in such lists, he is thereby barred of his right to make application to the Assessors or the County Commissioners for any abatement of his taxes, unless he offers such list with his application and satisfies them that he was unable to offer it at the time appointed."

TOWN MANAGER'S REPORT

ADMINISTRATION & FINANCIAL

This report is prepared to show the transactions in your Town Government for the year ending December 31, 1959.

With the increases in cost of materials and supplies, the costs to operate a Town will increase, these increased costs must be met by tax increases or the curtailing of some present services.

With each year there seems to be more demands on our present service and new services requested, such as: a Nurse for Bedside Nursing, a Director for Recreation, New Roads constructed, New Streets accepted, more Street Lighting, a Traffic Control Signal, Municipal Camping site, more school facilities, and many others. While all these are worthy services, we must remember they cost money and will be reflected in your tax bill.

This year the Town debt was reduced from \$74,000.00 to \$56,000.00. The present debt being \$52,500.00 in School Notes and \$4,000.00 in X-Ray Notes; of this, \$9,500.00 will be paid in 1960.

With a present tax commitment of \$337,135.32, \$191,725.00 was for Schools; \$36,440.00 for Highways; \$23,590.00 for Administration; \$10,224.00 for Protection; \$10,150.00 for Health & Sanitation; \$20,000.00 for Welfare; \$14,450.00 Unclassified; \$13,688.00 County Tax; \$12,868.32 Overlay; and \$3,300.00 for Cemeteries.

The total funds available for the year were \$905,311.09 and the expenditures were \$807,494.17, leaving a balance of \$97,816.92. One might ask where does the additional money come from, above the tax commit-

ment. Following are some other receipts: Hospital, \$178,679.00; School Subsidy, \$97,554.00; Temporary Loans, \$80,000.00; Highways, \$48,871.00; Cemeteries, \$3,294.00; Surplus, \$17,300.00; Warren Home, \$6,-118.00; Welfare, \$7,000.00; Meters, \$5,500.00; and Clerk Fees, \$1,400.00.

Surplus 1959 \$58,217.50 — Surplus 1958 \$68,921.37

PROTECTION

The law enforcement function is carried on with a Police Chief, one Regular Police Officer and two part time officers. Some thought has been given to having another regular officer in order to have 24 hour Police Coverage; as we now operate, we try to cover the most critical hours.

We cannot measure the value of a Police Department in dollars, nor can we know exactly the value, in lesser accidents, by their efforts in traffic control and traffic education. We do know by comparison that without this Police Coverage, accidents and crime would mount.

The Water District furnishes fire protection to the area outside the District. In some cases, they are handicapped by lack of water, however, many farm ponds have been built to furnish water for this purpose, as some of the ponds are not accessible to the fire fighting equipment. More accessible ponds and water reservoirs should be constructed for fire protection purposes.

HEALTH & SANITATION

The Hospital has been self supporting, at times crowded to capacity, therefore, thought has been given to enlarging the facilities. The Warren Home, while not self supporting, may well be serving a good purpose in the Community.

Sewers were constructed on Free Street and Lancaster Avenue. Much of our sewage system has been installed as private enterprises or without regards to the total system. Sometime in the future, large sums of money will of necessity, be expended to correct these deficiencies.

The Public Dump has been kept accessible most of the time. With the type of dump and lack of proper ordinances, it is difficult to have it accessible at all times.

PUBLIC WORKS

During the year, the Highway Department carried on the general Highway and Street maintenance. A portion of the road leading to Greeley's Landing was re-constructed, Vaughan Street was widened to correct a dangerous curve, some construction was accomplished on the Range Road, Cotton Brook Road, Parsons Landing Road. Many culverts were replaced and bridges repaired. Each year we try to replace some small wooden bridge with a metal culvert.

With the heavy rains of last fall, many of our Country Roads are now in poor condition. Much maintenance will be required to get them in passable condition.

Some sidewalk was re-constructed on North and Lincoln Streets. Most Streets were tarred, Sewers were maintained, and Cemeteries cared for by the Town Crew.

Many of our Elm Trees were pruned as a preventive measure in the control of Dutch Elm Disease. We had several trees that looked diseased, but after sampling and testing, it was found they were healthy.

CONCLUSION

If any, or all of the demands for more and better services are authorized, the tax burden will increase. We all should strive to attract more industry to our Town, so that job opportunities will increase, making it a more prosperous and a better place in which to live.

Respectfully submitted,

LAURENCE A. PEABODY,
Town Manager

AUDITOR'S REPORT

February 6, 1960

Board of Selectmen
Dover-Foxcroft, Maine
Gentlemen:

In accordance with your request, the financial records of the Town of Dover-Foxcroft have been audited for the fiscal period ended December 31, 1959.

The examination was made in conformity with generally accepted auditing standards, and included all procedures considered necessary in the circumstances.

The financial transactions of the Town, insofar as could be determined within the scope of audit, were appropriately handled.

The accompanying exhibits and schedules present the results of the Town's financial operations for the period indicated.

Respectfully submitted,

L. C. NEAL,
Public Accountant

LCN:mn

COMMENTS

Town of Dover-Foxcroft

December 31, 1958 to December 31, 1959

An audit of the financial records of the Town of Dover-Foxcroft has been completed for the fiscal year ended December 31, 1959.

The examination included a review of cash transactions as well as an analysis of available funds and expenditures. The results are incorporated in the following text, exhibits and schedules pertaining to the financial affairs of the Town.

The fiscal year's operations showed that available funds exceeded expenditures by \$12,791.48 per the following summary:

Unappropriated Revenue:

Overlay	\$12,868.32	
Parking Meter		
Account	617.97	
Supplemental Taxes	217.02	
	<hr/>	
		\$13,703.31

Departmental:

Overdrafts	\$ 7,321.18	
Less: Unexpended	6,409.35	
	<hr/>	
		911.83
		<hr/>
		\$12,791.48

ASSETS

The cash balance of \$97,816.92 in the general checking account was reconciled with statement fur-

nished by The Merrill Trust Company, verification of subsequent deposits and count of cash on hand at date of audit.

Other assets were reviewed to determine their correctness. Lists of unpaid accounts were reconciled with recorded balances.

LIABILITIES

Insofar as could be determined, there were no current liabilities, with exception of \$2,110.69 due the highway equipment account.

RESERVES AND SURPLUS

Reserve for losses in collection of taxes receivable was increased to cover approximately 50% of prior years' uncollected taxes.

Balances carried forward consist of the following: Civil Defense \$66.70, Mayo Memorial Hospital Funds \$24,125.31, The Warren Home \$473.03, Sewer Construction \$2,424.16, Sidewalk Construction \$3,227.37, Education \$44,552.41, Dutch Elm Disease Control \$765.40, Planning and Zoning \$488.87, and Group Insurance \$180.33.

The unappropriated surplus of \$58,217.50 reflects a decrease of \$10,703.87. This decrease was due principally to appropriations from this account. Analysis of this account is shown on the accompanying report.

SCOPE OF AUDIT

Town Clerk's records were examined, insofar as pertained to the financial operations of the Town.

Treasurer's receipts and warrants were test checked to determine accuracy of recorded transactions. Cash receipts were reconciled with bank deposits, and warrants reconciled with bank charges.

The 1959 assessment of property and poll taxes was proved and compared with list committed to the collector. Copies of excise tax receipts were reviewed and test checked with amounts remitted to the treasurer.

Matured tax liens and subsequent assessments were transferred to the tax acquired property account.

Recorded transactions in tax acquired property were examined.

Accounts receivable originated principally from current year transactions.

Trust fund resources were examined and transactions in trust fund balances were recorded.

We did not make a detailed audit; however, all accounts were analyzed and test checked to the extent considered necessary.

It is believed that the accompanying exhibits and schedules fairly present the financial condition of the Town as of December 31, 1959, and the results of its operations for the year then ended.

TOWN CLERK'S REPORT

During the year 1959, this office recorded 278 Births, 87 Deaths, and 57 Marriages. Many of the births recorded were not resident families, but in that Dover-Foxcroft has a Hospital, many cases from surrounding Towns are cared for here. The first child born in 1959 was Gary Edward Withamon, January 1st.

There were 761 resident fishing licenses sold, 232 combination licenses sold and 648 hunting licenses sold, which indicates that many people are interested in this form of recreation. Many non-resident licenses are sold in town but not from this office.

There were 594 chattel mortgages recorded, and it is of interest that very few mortgages are discharged.

Bounty was paid on 112 porcupines. The animal must be killed within the town that pays the Fee.

375 Dog Licenses were issued and 263 Children licensed their bicycles.

Many copies of Birth, Death and Marriage certificates are issued at this office during the year, and several hundred telephone calls about the above items are received.

Several people are in every year to look up old records back to 1830 on Births, Deaths and Marriages. We are sorry that our records in these old books are very incomplete, due to the fact that in those days laws about recording were very lax.

Respectfully submitted,

CARROLL W. AMES,
Town Clerk

ANNUAL REPORT OF THE WARREN HOME

Greetings:

At present, we have seven permanent members, two boarders, and room for one more of either.

In looking back over the past year, we find much to be thankful for. We have had hardly any sickness, no accidents, and no tragedies of any kind. We have gained many new friends. Our trustees have worked untiringly to make this year one of our best in many ways. The Home is definitely meeting a great need in our community. We are proud to learn, too, from our out-of-state visitors, that this Home is considered to be tops in the field of such establishments, a pattern to be followed by other communities across the nation as they begin to deal with their problems in social geriatrics.

May we thank all of you who had a part in helping us this year. To mention a few: The Athena Club, Town Club, Cosmopolitan, Miosac and Molasto Clubs, The Percolators, Hazel's Bakery, and the gift of our winter's supply of potatoes. In years past, Mr. Maynard Beal has provided them. This year, Mr. Earl Robinson has been furnishing them. The VFW gave us apples and many individuals brought gifts of fruit, cakes, cookies, candy, jelly, linens and plants. It has been appreciated and enjoyed by all.

In the words of our beloved town poet, Fred Washburn:

"..... we who are about to die
Salute the youth of tomorrow
For a part of the price of freedom is paid
In blood and sweat and sorrow"

And as we salute the present generation, we also ask them to remember that no new generation comes into being without a generation having been. Each generation owes much to the one which preceded it.

Respectfully submitted,

VIOLET AUSTIN, Matron

POLICE DEPARTMENT REPORT

To The Citizens of Dover-Foxcroft, Maine:

During the past year I believe we have made a great advance in the Police Department. We have now two Regular Officers and two others whom we may call for assistance if needed. All are uniformed and well equipped.

In the past year we have had installed a two-way Radio which is in on the Sheriff's Department Frequency. This is a great assistance and improves efficiency. It saves many noisy siren calls in the night as well as in other ways.

We have attended a Police School operated by the Sheriff's Department, conducted by two Deputies who returned from a State Police School in Augusta. Arrest Procedure, Safety, First Aid and many other phases of Police Work have been covered. Some of us have also attended other meetings during the year in an effort to improve the Department and cooperation with other Departments. We have experienced great co-operation in the past year, from other Departments, such as Town Highway, State Highway, Sheriff's Department, State Police, Game Wardens, Mayo Memorial Hospital, School Department, and all others with whom we work.

I feel that we have been very fortunate in regards to our Children going to and from School and during the summer vacation. We are very grateful for the assistance of our School Boy Patrols, but we should never slack off our efforts to aid our children, as many are very small and do not fully understand the necessity of being careful crossing streets and walking to and from school. I ask you all to please caution your children in regards to crossing streets, riding bicycles

and walking in the road where there are no sidewalks.

Respectfully submitted,

GERALD H. GREEN,
Chief of Police

KENNETH R. BEARCE,
Police Officer

PISCATAQUIS COUNTY TUBERCULOSIS & HEALTH ASSOCIATION

To the citizens and selectmen of Dover-Foxcroft, I present a brief report of the work of the Piscataquis County Tuberculosis and Health Association for the year 1959:

School Health:

The school physician, Dr. Bradbury, has given health examinations to the pupils in the subprimary, second, fourth, sixth, eighth, Sophomore and Senior classes, besides all those who are participating in athletics. Cards have been sent home to parents when conditions needing attention have been found. The greatest number of cards were sent home advising dental care. More and better dental care is needed throughout the county.

Protection against polio, diphtheria, tetanus, small-pox, whooping cough is offered annually. Many parents take advantage of this opportunity to protect their children against these dread diseases. Fourth shots of the Salk vaccine will be given to the pupils in the Dover-Foxcroft school area for the first time this spring. It is to be expected that a great many parents will wish their children to have the added protection that a fourth shot gives.

Audiometer testing is done annually. All pupils found having a hearing defect are given an opportunity to attend the hard of hearing clinic for diagnosis and treatment.

The other clinics that are available to our children are the Pediatric, Cardiac, Orthopedic, Speech, and Mental Health. Many children in this area are regular clinic visitors

Home visits are made throughout the year, for many and varied reasons.

The cooperation of the teachers and parents is greatly appreciated.

Tuberculosis Control:

Tuberculosis is still the number one killer in the nation today of all the infectious diseases. Although great progress has been made in the treatment of tuberculosis—and the mortality rate has been greatly lowered—there is still a long way to go before we can call the disease eradicated. Research continues to search for better drugs and for vaccines that will protect us from the disease. No home is safe until all homes are safe.

One of the most important parts of the tuberculosis control program is the finding of the unknown cases of tuberculosis before they infect others.

The Piscataquis County Tuberculosis and Health Association, in cooperation with the local and State authorities, works to find the unknown cases, to help those who have the disease and to rehabilitate those who are recovering.

This association is always ready to assist with your health problems.

Respectfully submitted,

EILEEN BONSEY, R.N.,
Piscataquis County Tuberculosis
and Health Association

REPORT OF PUBLIC HEALTH NURSE

Maine Department of Health and Welfare
Division of Public Health Nursing, Bureau of Health
Annual Report of Public Health Nursing Services in
the Town of Dover-Foxcroft for the Year 1959

At the year's end it is again appropriate to give you an account of public health nursing services in your community for the year 1959.

The primary purpose of public health nursing is to provide nursing service to people at home, at school, at work, in clinics and health centers, so that individuals, families and the community as a whole will be helped to achieve and maintain optimum health. Public health nursing is one of the basic health services that contribute to a healthy and happy way of life.

The very important work of the Division of Public Health Nursing of the Maine Department of Health and Welfare is to provide public health nursing service to people in the rural areas and small towns of our State. These services include:

Health teaching of individuals and families in their homes for the prevention of illness, promotion of health and correction of defects.

Teaching nursing care of the sick and rehabilitation of the handicapped in their own homes, with medical direction from the patient's physician.

Prevention and control of communicable diseases through immunization programs, detection and follow-up of tuberculosis and venereal diseases, and health education.

Maternal and child care, including school health services and child health conferences.

Follow-up home visiting to individuals and families under care of the various State clinics and

services — crippled children, pediatric, mental retardation, cleft palate, adolescent, cardiac, tuberculosis — to help patients and families carry out the doctor's instructions for treatment.

Working closely with physicians, hospitals, and other health and social agencies in behalf of patients and families.

Working closely with the townspeople, individually and in groups, so that the people themselves will take responsibility for developing health programs to meet their unique local health needs.

Health is a priceless possession, defined by the World Health Organization as "a state of complete physical, mental, and social well-being and not merely the absence of disease or disability". It is wisely said that the public health is people, who are so concerned with good health for themselves, their neighbors, and their community that they work for this priceless possession. This wise saying guides us well, for nowhere in our State do we have the number of public health nurses we need to give all the services we would like to give. It follows, then, that a successful public health nursing program does, and indeed should, depend largely upon the interest, support, and volunteer work of the local people, individually and through organized group effort. The public health nurse gives directly those services that require her special professional nursing skills and gives leadership and counsel to the townspeople in developing, cooperatively, the health programs most suitable for their own community.

Your public health nurse submits the following summary of public health nursing services in your community for the year 1959:

Three child health conferences were held in West Dover, sponsored by the West Dover Extension Group,

with a total attendance of forty-four infants and preschool children.

In Dover-Foxcroft, child health conferences have been held each month since September, sponsored by the Auxiliary of the Veterans of Foreign Wars. Attendance at these conferences has been heavy with a total attendance for the year of one hundred seventy-four infants and preschool children. Physical examinations were given by the attending physician to thirty-four infants and preschool children. Six children were given smallpox vaccinations, eighty-three children received polio protection and ninety-five children were given diphtheria, whooping cough and tetanus immunizations.

Home visits have been made to members of the older age group, pregnant women, infants and preschool children. Visits were not made to school children nor to tuberculosis patients and their contacts since these services are carried by the Piscataquis County Tuberculosis and Health Association. Conferences have been held with town officials, physicians, and others concerned with the health of the community.

Respectfully submitted,

MRS. SARA S. KIRBY, R.N.,
Public Health Nurse

Analysis of the foregoing report reveals a satisfactory increase in services rendered to the surrounding area. The total patient days of service rendered increased by 14% and our daily average of patients increased from 18.8 to 21.6.

To a large extent this reflects the utilization of the hospital by people from the Milo area. If Milo fails to resolve their hospital problem locally and desires to continue use of our facilities, it will probably be necessary to expand. Plans for an extension of the present main building to "square off" with the wing have been drawn up which would provide a five bed male ward, two private rooms and a two bed room all complete with bath. With the recent bequest of \$5,000.00 from the estate of Mrs. Edith Oakes Hilton and the last year's bequest from the estate of Miss Myrtice Oakes, it is anticipated that funds will be available for this expansion. It is the hope of the Trustees and the Medical Staff that Milo will indicate a desire to continue usage of our hospital in the same manner as the neighboring town of Guilford, since by so doing we will be able to offer improved facilities to the people of the entire area.

Improvements this past year include a new ceiling and rewiring of the laboratory, installation of a non-conductive floor in the operating room and installation of a fire door between the boiler room and the laboratory.

In line with new fire laws, the State Fire Inspectors are demanding that this coming year we enclose the back stairway with fire resistant material, install a sprinkler system and non-conductive flooring in the

delivery and emergency rooms. Estimates have not yet been obtained but presumably will cost in the neighborhood of \$6,000.00.

In addition to the above mentioned generous bequest of Mrs. Hilton, I should like to join the Trustees in thanking the Stowell-MacGregor Company for the donation of \$125.00 towards the purchase of a new sterilizer in the emergency room.

I should like to point out the improvement in our financial situation in that we showed a profit of \$5,832.50, from this we paid the X-ray and elevator notes, leaving a balance of \$1,832.50. In addition, our accounts receivable decreased by slightly more than \$600.00. This reflects in a large measure the excellent work of our bookkeeper, Mrs. Mary Campbell.

As is their custom, the Trustees, Mrs. Vivian Weatherbee, Miss Marjorie Doore and Mr. John Meisner have been extremely faithful in their exercise of their duties. To them, my sincere thanks and appreciation.

Respectfully submitted,

ISOBEL M. CURRIE, R.N.
Superintendent
Mayo Memorial Hospital

ANNUAL REPORT OF THE LIBRARIAN

THOMPSON FREE LIBRARY

The circulation for the year 1959 was 35,681, an increase of about 2400 over the previous year. There are at present 1322 adult, and 631 juvenile resident borrowers, besides the visitors.

A total of 623 books were accessioned:

Fiction	347	Non-fiction	276	Total	623
Adult	189		189		378
Juvenile	158		87		245

A large donation of boys' books was received from James Williams. Other gifts were received from Fred Washburn, Sandra, Rita and Linda Huntington, John Glover, Annie Linn, Mary Cary Kimball, Charles Schide, Margaret Haber, Betty Stanhope, Mrs. Thorn-dyke Chase, Isobel Buck, and Erminie Steeves.

We are receiving 41 adult magazines and nine children's magazines, as well as four daily and two weekly newspapers.

Members of the staff and the executive board attended the State Library Round-table in Dexter in June, and the Maine State Library Association Con-vention in Bangor in September.

Again this year, flowers presented through the summer by the Community Garden Club were much appreciated.

National Book Week was observed in November with displays, and a story hour by Mrs. A. T. Geller-son. A Christmas story hour was conducted by Mrs. Bartley Rollins.

Respectfully submitted,

DORIS ZILINSKY, Librarian

DOVER-FOXCROFT SCHOOL DISTRICT

1959

ELEVENTH ANNUAL REPORT OF TRUSTEES

To the Municipal Officers of the Town of Dover-Foxcroft:

As is obvious to any citizen, the North Street School is rapidly deteriorating. It was originally retained by the Trustees, after the construction of the Harrison Avenue School, against the possibility that it might again be needed in the school system. It is now the consensus of the Superintending School Committee and the Trustees, based upon subsequent experience, that neither the land nor the buildings will be required for school purposes in the foreseeable future. If we are in error, there is in any event adequate room for necessary expansion at the Harrison Avenue School, and the condition of the North Street building will soon be such that it will be economically unfeasible to re-occupy it. We have therefore, tendered this property back to the town, so that the land may be used for other municipal purposes, if desired, or be otherwise disposed of. Whatever is done, we hope that the building will be demolished in the interest of public safety.

The Pleasant Street and Mayo Street Schools have this year been the subject of an inspection by a representative of the State Insurance Commissioner and recommendations have been made to us that expenditures be made to bring these buildings into compliance with the National Fire Protection Association Code. To accomplish this will require a considerable investment by way of sprinkler systems, alterations in the physical plant, or both. The Trus-

tees are working on the problem in conjunction with the Superintending School Committee, but as of this date, we have reached no conclusion.

While the accounts of the Treasurer have not yet been audited, as of January 1, 1960, there was a cash balance on hand of \$33,618.12, and long term indebtedness outstanding as follows:

2% Bonds of 1950	\$ 70,000.00
2 $\frac{1}{8}$ % Bonds of 1950	20,000.00
3% Note of 1955	2,500.00
4 $\frac{1}{4}$ % Bonds of 1956	170,000.00
3.30% Notes of 1958	24,300.00
	<hr/>
	\$286,800.00

Disbursements from the January 1 cash balance during 1960, assuming no expenditures on the Pleasant Street and Mayo Street Schools, are estimated as follows:

Bond and Note Reduction	\$20,200.00
Interest on Bonds and Notes	9,712.35
Balance on Construction Contract	2,000.00
Salaries, Treasurer's Bond	
Miscellaneous	500.00
Available for 1961	1,205.77
	<hr/>
	\$33,618.12

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens
of the Town of Dover-Foxcroft:

I hereby submit my annual report of the schools.

There are four new teachers in the system this year. Mrs. Hope Pinkerton, who formerly taught at North Street and who has been teaching more recently at Abbot, replaced Mrs. Velma Smith who left the system and town to move to Dixfield. Mrs. Joyce Howard, a graduate of the University of Maine, who has been teaching in Waterville, was hired to replace Mrs. Effie Bolton, who retired in June after teaching more than 34 years in the town. Mr. Eben DeWitt of Milo, a graduate of the University of Maine, replaced Mr. Daniel Seiders as teacher and coach at the Grammar School. In addition to the above changes, Mrs. Virginia Bradford, a University of Maine graduate, is teaching part-time at the Grammar School, relieving Mr. Hewes in order that he may better carry out his duties as principal of the Grammar and Mayo Street schools.

The enrollment is only slightly higher than that of last year, but the large classes which entered a few years ago are now in the Grammar School and, within a year, will be entering Foxcroft Academy. This will present problems at the secondary level in a very short time.

Pupils in grades seven and eight were grouped homogeneously this year and, in all probability, grade six will be included next year. It is too early to report on the results at this time. However, the possibilities in this type of grouping seem to warrant its contin-

uation. I would refer readers to the report of the supervisor for a further explanation of this phase of the program.

There is a trend to increase the length of the school year and, in keeping with this, the Superintending School Committee has voted to conduct thirty-seven weeks of school next year. This should add approximately four days to the school year. We have scheduled thirty-seven weeks for a number of years but close at the completion of 180 days—at some time during the thirty-seventh week. I would predict that in a short time the school year will be composed of 180 actual days of school rather than the present 180 school days which include Labor Day, State and County conventions, Thanksgiving, Memorial Day, Veterans' Day, etc.

The most difficult problem confronting school committee people today is finding qualified teachers. This problem is increased in this town by our salary schedule which is lower by \$200-\$300 than those of surrounding towns. The current schedule in Dover-Foxcroft offers \$3300 to beginning teachers with a degree. This figure is entirely inadequate and must be raised if we are to replace our teachers who are reaching retirement age. A continuation of the low rate of pay will surely be reflected in the quality of instruction for the young people of the town. A realistic approach to this major problem must be made regardless of our personal feelings in the matter.

A recent report from the Insurance Commissioner's office indicates some major improvements at the Pleasant Street and Mayo Street schools. This matter has been referred to the directors of the Dover-Foxcroft School District.

The budget for the year 1960 has been presented

ANNUAL REPORT

to the Town Budget Committee. This budget shows an increase over the 1959 budget of nearly thirteen thousand dollars. However, the amount needed to be raised by the Town is \$2,128 less than the amount raised last year. This is due to an increase in State and Federal subsidies.

The lunch programs are operating at near capacity. These programs are very well received and contribute a great deal to the over-all health and development of the children. The following figures, taken from the annual audit, may be of interest:

INCOME		EXPENSES	
Student meals	\$17,804.25	Food	\$15,521.65
Recess milk	1,188.21	Labor	6,837.75
Adult meals	783.43	Clerical	240.00
Federal subsidies	4,175.11	Equipment & Supplies	420.00
Town of Dover-Foxcroft	360.00	Fuel	248.60
Miscellaneous Income	175.09	Miscellaneous	580.78
<hr/>		<hr/>	
\$24,486.09		\$23,848.78	

Net gain for year—\$637.31

The following amounts are recommended by the Superintending School Committee as necessary to carry out the operation of the schools for the ensuing year:

General Fund	\$88,290.00
Physically and Mentally	
Handicapped	900.00
Adult Education	None

Respectfully submitted,

FREDERICK L. MOSSLER,
Superintendent of Schools

Special teachers are not on the above schedule.

Extra pay beyond the schedule is earned by principals, coaches and assistant principals—if any.

The proposed schedule for 1960-61 would be \$300 above the present schedule in all categories.

REPORT OF ELEMENTARY SUPERVISOR

To the Superintendent, Superintending School Committee and Citizens of Dover-Foxcroft:

I hereby submit my third annual report.

The start of this school year saw the innovation of two changes in our school system, the purpose of which is the improvement of education. The sub-primary children were promoted to the first grade by rooms instead of mixing part of one room with part of another. The reason we believe this helps to improve education is that during the first year in school the children have become acquainted with each other and are used to working together in groups. These have been arranged by the teacher on the basis of the biological growth and development of the children. Each group, as it progresses, learns different skills necessary for a good foundation in the art of learning. By the end of the year each sub-primary has acquired certain specific skills according to the ability of the different groups. There are usually three groups in each room and all of these groups in all of the rooms will be at slightly different stages of development. When these rooms are mixed and sent into the first grade, the teacher finds that her children are usually at six different levels of attainment in their reading and number skills. It usually takes from four to six weeks of re-adjustment, to be sure that all the children have received the necessary skills, before the grade can be re-grouped. By promoting them by rooms last fall, the first grade teachers reported that by the end of two weeks, they had settled down to routine work.

The second change was the ability grouping in the Grammar School. The higher the grade the greater the range of abilities within the grade. In an eighth

grade of one hundred pupils, there are grade level abilities ranging from third to twelfth. The reason for the ability grouping is that the high ability group can progress much faster without the danger of some pupils getting discouraged because they are not able to keep up. By the same token, the groups can go as fast or as slow as their ability allows without some pupils getting bored. With a range of not more than three or four grade levels in a group, there is more opportunity for individual attention.

During the year a change was made in the value of the ranks for grades three, four and five. Since the adoption of the present rank cards, there has been a difference in the rank values between the above mentioned grades and grades six, seven and eight. In grades three, four and five, B has been considered as average rank, but in grades six, seven and eight, C is the average mark. Consequently, when a B pupil from the fifth grade went into the sixth grade and did the same grade of work, he became a C pupil. This was changed during the second ranking period. Now the value of the ranks in grades three through eight is the same.

The teachers and pupils of grades five through eight are making plans for an Elementary Science Fair to be held the last of March. This will consist of an exhibition of projects prepared by the pupils, demonstrating or based upon some scientific principle. The Fair will be open to the public and we hope you will all make an effort to visit it.

As fast as the budget allows, new text books are being added where they are most needed. Some of them are quite different from those of ten years ago, particularly the science and arithmetic books. For the first time, algebra books were purchased for the Grammar School to be used in the first division of the

eighth grade. We need more supplementary reading books. Many children, after learning to read, do not have the opportunity to read for enjoyment and thereby lose interest in reading. We would like to have many books, both fiction and non-fiction, covering many fields of interest, available to all children. To this end, a committee is being formed, consisting of teachers and other interested persons, to work out and present a plan whereby this may be accomplished over a period of years.

Another one of our teachers is joining the ranks of the "unemployed" in June. Mrs. Harriett Ladd, who has taught in the schools of Dover-Foxcroft for 32 years, is retiring. May she "travel" in peace!

On behalf of the teachers and pupils, I want to thank the P.T.A. for their gift of money and the Percolator Club for the playground equipment for the sub-primary playground. This equipment will be erected as soon as ground conditions permit. We also thank the townspeople who have given of their time to come into the schools to talk to the pupils, show slides and help with field trips.

Respectfully submitted,

C. LEROY BARKER,
Elementary Supervisor

REPORT OF SUPERVISOR OF MUSIC

To: Frederick L. Mossler, Superintendent of Schools

Twenty-three pupils started instruments in the lower grades this year to make a total of forty-seven who receive instruction at the Grammar and Mayo Schools. Eleven pupils began instruments at the New Elementary School. I visited grades three through six weekly for general music. Miss Georgianna Crockett, who continued her excellent work with seventh and eighth grade classroom music, has done much to aid the program. Junior band membership has increased to forty members this year.

Ten band members from the Grammar School have been transported to the Academy for regular rehearsals, augmenting the membership of that group. The Band played for numerous football and basketball games, and will take part in the Eastern Maine Music Festival and Penquis Music Festival this spring. The Girls' Chorus sang for the Teachers' Club on February 11th and will also attend the Eastern Maine Music Festival. Together with the Band they will present a spring music program in Dover-Foxcroft.

This report would not be complete without grateful acknowledgement of the support of Dover-Foxcroft citizens and friends.

Respectfully submitted,

DEAN ALDRICH

REPORT OF THE SCHOOL PHYSICIAN

To: Frederick L. Mossler, Superintendent of Schools

The following is my report as School Physician for the year 1959.

A physical inspection of all grade school children was made on the first day of school to exclude those with contagious disease.

Children in alternate grades from sub-primary through high school received physical exams of heart, lungs, nose, throat, ears and teeth during the past fall. Cards were sent to parents calling attention to remediable defects. Those engaging in athletic competition also had inspection for hernia and had blood pressures taken.

Approximately 900 injections of Poliomyelitis vaccine were given, the majority of these being the fourth injection.

Respectfully submitted,

FRANCIS W. BRADBURY, M.D.

ANNUAL REPORT OF FOXCROFT ACADEMY

To the Joint Board of Foxcroft Academy:

I hereby submit my thirteenth annual report as Principal of Foxcroft Academy.

The fall semester opened on Tuesday, September 8, 1959, with an enrollment as follows:

	Boys	Girls	Total
Class of 1963	31	51	82
Class of 1962	37	33	70
Class of 1961	42	25	67
Class of 1960	37	35	72

Once again Foxcroft Academy was fortunate in having but one change on its faculty this year. Miss Leah Brown retired from active service after forty-six years of teaching in the State of Maine; the last eleven of those years were at Foxcroft Academy. Her position was filled by Mr. James Howard, a 1959 graduate of Bowdoin College. We should consider ourselves fortunate in being able to maintain a faculty that has only one or two changes each year. Continuity and loyalty of a faculty determine the effectiveness of a school. Whenever constant change is prevalent, academic standards are lowered and educational progress is very nearly impossible to obtain.

The 1959-1960 enrollment is the highest reached to date since I have been connected with Foxcroft Academy. We opened in September with 291 students, an increase of 25 over the 1958-1959 enrollment and of 37 over 1957-1958 totals. Next year the projected enrollment indicates that we will have about the same number of students as this year but the entering 1961-1962 class can well reach over 100 from Dover-Foxcroft alone. This number, increased by the addition of tuition students from Atkinson, Sebec and other towns could make a class ranging near the figure 110. Such

an increase, followed by two or more classes of the same size foretells an overall Academy population of 350 or more within the next four or five years.

During the past month our drive to build a gymnasium has taken on added impetus because of the following two facts.

1. Before we can meet the accreditation standards as set up by the State we must offer physical education as a part of our curriculum and provide the facilities for such classes.
2. With the recent condemnation of Central Hall as a fire hazard, we shall undoubtedly find ourselves without any place to put on plays, to assemble as a student body, and or even have a hall large enough for graduation. The future use of Central Hall and of our own immediate crisis awaits the outcome of the 1960 town meeting.

We cannot continue much longer as a first class school without our own facilities to offer our children an opportunity to develop physically as well as mentally. Certainly a good course in physical education is necessary and should be required for all of the boys and girls who attend this Academy. Therefore, with the foregoing facts in mind, our fund raising drive has been stepped up and our appeal for financial assistance is extended and openly solicited of every person in this area. We can only start construction if we have the necessary funds. We can succeed if everyone donates his fair share to the fund.

Throughout the country there seems to be a stiffening of attitudes and a greater sense of purpose towards educational standards and goals. This has been progressively felt and stressed since the scien-

tific "break-through" in space by Russia and the resulting challenge to the American educational system. The most obvious targets have been on mathematics and science departments, but all areas of the curriculum are being stiffened. The public in general and the colleges specifically are demanding something besides a diploma for admission. Achievement tests and a demonstrated proficiency via written compositions are expected of everyone. Stress upon the fundamentals of learning are a must and a thorough knowledge of these facts cannot be acquired during the last four to six years of school. They have to be started early in life, — in the home and in every facet of a child's life. Only by early and constant prodding of the child to develop his native ability so that he eventually finds his rightful place in life can we say we are raising our educational standards. To-day in our complex society the man with nothing more than an unskilled background finds our economic climate "lined up" against him. All students very shortly will have to realize this fact if they are to secure a livelihood that is assured by any kind of permanency. The real meaning is that a high school diploma will not be enough — some kind of skilled training or apprenticeship seems mandatory for all but the uneducable.

To the faculty, to the superintendent of schools, to the joint board of Foxcroft Academy, and to the parents and citizens of Dover-Foxcroft, I wish to express my thanks for your loyal cooperation and assistance in helping us to meet the educational needs of this Academy. Your continued interest and assistance is welcomed and solicited, because education is not a job for the schools alone, but one belonging to all the people.

Respectfully submitted,

TILLSON D. THOMAS, Principal

RECOMMENDATIONS OF BUDGET COMMITTEE, 1960

This year the budget committee has been expanded from fifteen to twenty-six members allowing the formation of departmental sub-committees to study the various town accounts. For this reason, more thorough investigation has been possible than in previous years.

The recommendations which accompany each article are, in the opinion of the budget committee, adequate to provide the most wanted services to Dover-Foxcroft citizens for the most reasonable cost. Based on an estimated town evaluation of \$10,000,000.00, each \$10,000.00 of taxes raised represents one mill in tax rate. The 1959 rate was 33 mills. The recommendations of the budget committee are to raise \$336,520.00 from taxes including approximately \$48,688.00 for School District Tax, County Tax, and estimated overlay. This amount represents an approximate mill rate of 33, based on additional revenues.

BUDGET COMMITTEE RECOMMENDS \$ 0.00

Art. 18. To see if the Town will vote to purchase the North Street School Building and lot from Dover-Foxcroft School District.

Art. 19. To see if the Town will vote to authorize the Selectmen to sell or otherwise dispose of the North Street School Building and lot on such terms and conditions as they shall deem expedient.

Art. 20. To see if the Town will vote to establish and maintain a Municipal CAMP SITE, and raise and appropriate a sum of money for the same.

BUDGET COMMITTEE RECOMMENDS \$ 0.00

Art. 21. To see what sum of money the Town will vote to raise and appropriate for the construction of a sewer on FAIRVIEW AVENUE.

BUDGET COMMITTEE RECOMMENDS \$ 0.00

Art. 22. To see if the Town will vote to adopt an

ordinance containing substantially the following provisions:

The use or possession of any firearms within the limits of the public dump is hereby prohibited. Any person convicted of a violation of this ordinance shall be deemed guilty of a misdemeanor, and punished accordingly, and the Piscataquis Municipal Court shall have original jurisdiction of said offense.

- Art. 23. To see if the Town will vote to raise and appropriate a sum of money for the purpose of making a SURVEY and plans for the collection and disposal of SEWAGE.

BUDGET COMMITTEE RECOMMENDS \$ 1,000.00

- Art. 24. To see if the Town will vote to raise and appropriate the sum of \$20.00 to REIMBURSE WILFRED HESKETH for taxes mistakenly assessed and collected by the Town.

BUDGET COMMITTEE RECOMMENDS \$ 20.00

- Art. 25. To see if the Town will vote to discontinue the occupancy and use of Central Hall building, authorize the Selectmen to make other necessary arrangements for Town Offices, and raise and appropriate money therefor.

NO RECOMMENDATION

- Art. 26. To see if the Town will vote to discontinue occupancy and use of all that part of Central Hall building above the first floor thereof.

NO RECOMMENDATION

- Art. 27. To see if the Town will vote to repair, reconstruct and alter Central Hall building

in accordance with the requirements and regulations of the Insurance Commissioner, and raise and appropriate money therefor.

BUDGET COMMITTEE RECOMMENDS \$ 4,000.00

- Art. 28. To see if the Town will vote to authorize the Selectmen on behalf of the Town to borrow a sum of money not to exceed \$8,000.00, on such terms and conditions as they may determine, and to appropriate the same for improvements to Central Hall, and to authorize the Selectmen and Treasurer to issue notes or other obligations to become due not later than five years after the date thereof.

RECOMMENDED Yes

- Art. 29. To see if the Town will vote to establish a RECREATIONAL PROGRAM and raise and appropriate a sum of money for same.

BUDGET COMMITTEE RECOMMENDS \$ 2,100.00

- Art. 30. To see if the Town will vote to direct the Selectmen to appoint a Committee of 3 or 5 persons to be known as the Dover-Foxcroft Industrial Committee, whose function shall be to promote the industrial development of the Town, and to advertise its resources.

RECOMMENDED Yes

- Art. 31. To see if the Town will vote to raise and appropriate the sum of one thousand dollars (\$1,000.00) to help defray expenses of the Dover-Foxcroft Industrial Committee in the performance of its functions.

BUDGET COMMITTEE RECOMMENDS \$ 1,000.00

The Selectmen hereby give notice that the Polls for the election of Town Officers as are required to be

chosen by Secret Ballot, will remain open from ten o'clock in the forenoon until seven o'clock in the afternoon, when they will be closed; and that the said Selectmen will be in session at their office in Central Hall Building at ten o'clock in the forenoon on the Tenth, Eleventh, and Twelfth days of March, A. D. 1960, to receive applications of Persons claiming a right to vote and at ten o'clock on the morning of the day of said election to hear and decide upon the applications of such Persons, until the Election of Town Officers required by law to be elected by Ballot has been completed.

Given under our hands, this 18th day of February,
A. D. 1960.

WHY?

KEEP MAINE GREEN

Woodland fires are very risky.
So keep Maine green in 1960!
